C SAMS PROGRAM

It looks as if the C SAMS (Christian School Administration and Management System) that Susan and I acquired during the first quarter of this year, has been adapted as we wanted it for our Academies' needs. Mr. Etienne Joubert (whose wife is the Principal of

a Christian School in Uitenhage, and who also Hosts some home schools in the Eastern Cape), agreed with us (before we purchased the program), that he will individualise this program in order to meet the needs of our specific Academy. He has spent a lot of time during the past few months to do just that, and we downloaded the new ordering program for home schools into my program this week Wednesday. I again asked for certain changes, which he will make available to me on Monday morning, 20 June, in order for me to check and then present it to all home schools at next weeks' Home Educators Days.

This program will allow home schools to just "click" the items they want to order on a file that will be e mailed to you. You will then e mail the file to me after which I will be able to edit it (for rented score keys, etc.), and then upload it to my C SAMS program. I will also e mail the final copy of the file with the amount you are to pay into my account, to you.

This procedure will help us to process orders more speedily, and will also allow us to process a greater volume of orders as some of my tedious admin will not be necessary anymore.

Every Home School will have to register (It's free) with Afritech, which is his organization, in order for you to receive a specific code by which I will be able to upload your students' file

directly into his own file on my computer.

WCHEA continuous updated Accounts will then be available for you to view at any stage on the Internet. (On a secure site). This means you will be able to see exactly what the balance on your account is at any stage during the quarter as we at the office update it daily with Order costs, postage costs, etc.

An explanation and demonstration will be given to all at next weeks' Home Educators Days.

You might also desire to acquire your own C SAMS Home School package for your Administration of PACE Test results, etc. You will be able to pay a once off cost of R500 which will mean you can update your own Supervisors Cards with all your students' PACE test scores and update it onto my system automatically without you having to give me a copy of the SPC every quarter. This system can be used for up to 5 students at your home school.

This will especially be helpful as you will be able to update my system with the exact scores and dates that the students wrote their PACE tests on, meaning that we will be able to print official, up to date and relevant Reports for every student.

It will also mean that I will always have up to date information on all students for ACE and the WCED, and not just updated information up to the last visit date which sometimes is up to 3 months ago. It will be great to strive for this as it would mean excellence and relevant up to date information at all times.

Thank you for considering this option, and also making an effort to be at next weeks' Home Educators Days where (as mentioned) we will demonstrate the C SAMS program. I will also attach a file to the same e mail this newsletter was attached to which will tell you a bit more about the Home School version of the C SAMS program.
